### **DETAILED ACTION**

1. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or make obvious the claimed automatic firearm or conversion kit. Specifically, the prior art fails to disclose the claimed structure, including a reciprocating unitary bolt carrier assembly with a bolt, firing pin and a carrier; a return spring urging the bolt carrier assembly in-battery; and a weight means slideably mounted within a containment space that travels with the bolt carrier assembly; such that the sliding weight stops rebound of the bolt carrier and increases bolt dwell-time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-12 are allowed.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gwinn, Jr.; Mahtook; and Gillum are cited as being of interest since they disclose weapons with bolt anti-bounce systems.
